Subject: Samples and Chain of custodies Radford samples

Dennis,

All chain of custodies can be found at: L:\Lab\NRMRL_Aurell\Radford\CoC

The VOC tubes and original CoC has been sent out using the shipping label and cooler we got from ALS.

The PM2.5 samples are in a cardboard box on your desk, with a CoC.

The HCl/perchlorate samples are in the fridge on the second shelf from the top, with CoC in the bag – these samples has to be shipped cool

The NC samples are in the fridge (E366) on the second shelf from the top, CoC in the bag

The NA samples are in the fridge (E366) on the second shelf from the top, CoC in the bag

The Cr VI samples are in the freezer (E366), bottom shelf on the right, CoC in the bag – these samples needs to be shipped cool (frozen).

The PCDD/PCDF samples are in the fridge (E366). CoC on the PM2.5 box on your desk.

There are some extra CoC on your desk as well, copies.

Thank you!

Johanna Aurell Ph.D.
